Newsletter #2

Work in Progress...

The project "COMM.ON HERITAGE. Community Manager for Inclusive Development of Vulnerable Areas based On Heritage" is proceeding normally despite the difficulties created by the restrictions due to Covid-19. The 2nd Transnational Meeting took place online in February, while the guide presentations are in progress during the summer in all partner countries.

We continue with the creation of the **GeoTrail**, that will be accessible thanks to the Geocaching App and through a link available on the project website. The creation of the GeoTrail will be done involving vulnerable groups (inmates, refugees, persons in alternative measures to detention, persons with mental health problems, etc.) of the territory in social work activities, offering them inclusion opportunities.

Good practices of social integration and inclusion through cultural heritage were presented such as social integration through art and the creation of cultural routes.

The 2nd Digital Transnational Meeting was a great opportunity to deepen national experiences and meet local stakeholders.

Creative online partner meetings

Monthly meetings are an important way to keep our collaboration strong and our initiatives running smoothly.

Whether we need to share information, gather feedback, or make decisions, there are a lot of positive effects of having monthly partner meetings.

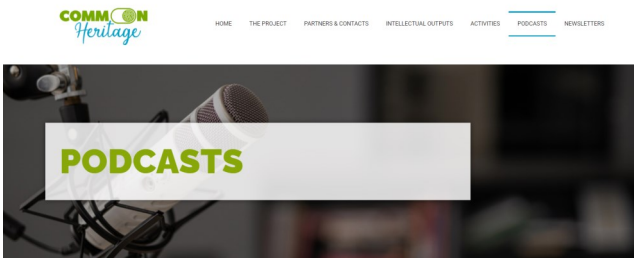
Podcasts



It's no secret that we're big fans of our podcasts and our different types of content.

We already had interviews with António Lamas, Dimitris Plevrakis, Kaja Antlej, Nicholas Karachalis and Stathis Grapsas. Each of these community leaders shared their views about creating value from cultural heritage. Take a look at the amazing interviews and guests we've had on the show...
