## Work in Progress...

The project "COMM.ON HERITAGE. Community Manager for Inclusive Development of Vulnerable Areas based On Heritage" is proceeding normally despite the difficulties created by the restrictions due to Covid-19. The 3rd Transnational Meeting took place in Slovenia on October, while the creation of the Geotrail are in progress in all partner countries.

We continue with the creation of the **Toolkit**, a practical toolkit on analysing and assessing the challenges and ideating new heritage-inspired solutions with the aim to build on the social, economic, environmental and cultural value of local cultural heritage. The Toolkit will be available on the project website.

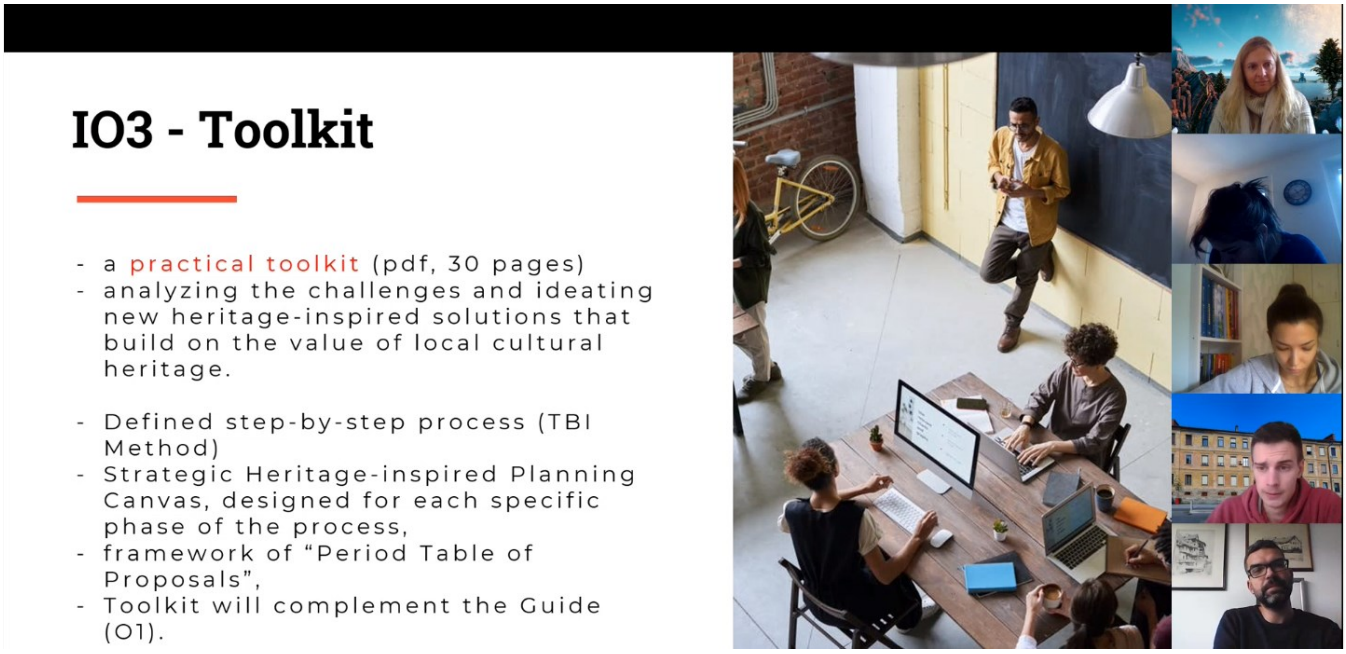
# COMM.ON Workshops

## Workshops by Idrija



Idrija organization planned and implemented 3 Workshops where all partners participated. During these workshops Idrija, thanks to its specific competences in start-up ideas and in business model canvas use, presented to the partners and in collaboration with them created the tools which will contribute the Toolkit.

The toolkit will contain Strategic Heritage-inspired Planning Canvas, designed for each specific phase of the process, and the framework of "Period Table of Proposals", aimed at evaluating and prioritizing very diverse projects, highlighting logical connection between them and showing peope how small ideas can contribute to big change. It will be one of the tools that the Community manager can use to activate the community in order to create heritage-based development opportunities, especially when the emphasis is on innovation and sustainable development and inclusive participatory process. Toolkit will complement the Guide.
